## ABOUT DIGITAL ECEC 2

Digital ECEC 2 supports the digital transformation of Early Childhood Education and Care (ECEC) by integrating Artificial Intelligence into teaching, learning, and school management. The project strengthens teacher training and continuous professional development by equipping educators, school leaders, and pedagogy students with digital and AI competences. It promotes innovative methodologies and collaborative learning approaches that enhance educational quality across Europe.

By combining structured training, practical tools, and international cooperation, Digital ECEC 2 contributes to a more modern, inclusive, and future-ready early childhood education system.

## OBJECTIVES

Digital ECEC 2 aims to:

**Strengthen digital and Artificial Intelligence competences in ECEC**

**Support teacher training and professional development**

**Develop AI-enhanced educational tools and interactive learning resources**

**Increase institutional capacity for digital readiness and innovation**

**Promote inclusive, high-quality Early Childhood Education and Care systems**

The project aligns with European priorities on digital transformation, Artificial Intelligence, and educational quality.

## PROJECT RESULTS

Digital ECEC 2 delivers:

### **AI-Focused e-Learning Course for Teachers and Parents**

A structured e-learning course supporting educators and parents in understanding and applying Artificial Intelligence in early childhood settings.

### **AI-Enhanced Pedagogical Tools Library**

Interactive resources and innovative digital solutions to enhance learning and engagement.

### **AI Roadmap for ECEC Management and Administration**

Guidance for integrating Artificial Intelligence into teaching, assessment, and administrative processes.

All project results are freely available through the Digital ECEC 2 online platform in multiple languages.
